

THE MONOPOLIST'S MOTTO: "ANY TAX BUT A TAX ON LAND VALUES"

The community creates land values. The community makes Government expenses necessary. **Pay the one with the other.**

It does not read, "The earth hath He given to some of the children of men."

Land values belong to the people. Keep this in mind whatever be the political expedient laid before you.

Taxing things that can be hidden makes sneaks and liars. **A man cannot hide his land.**

Rob a house and you are fined **once**. Build one and you are fined (taxed) **every year**. What a farce!

Three million houseless, homeless, hopeless, starving tramps under 30 years of the highest "Protection" known in American history.

Why not seek our taxes where the speculator gathers his riches, from land values?

"Give us this day our daily bread." But how can we expect to get it if we allow ourselves to be robbed of our land?

A LESSON IN FINANCE.

The land of every country is the common property of all the people of that country, because the Creator made it as a voluntary gift to them.—*Right Rev. Nulty, Bishop of Meath.*

"The greatest discovery of my life is that the men who do the work never get rich."—*Andrew Carnegie.* NOTE.—Andrew Carnegie and his thousands of workmen are "Protected." Carnegie is a millionaire; his workmen are starving. Hurrah for Protection!

Tax dogs, they become scarce. Tax kerosene, houses darken. Tax wealth, it disappears. Tax land values, and more land is offered for use.

A labourer turns a desert into a garden, and then we increase his taxes. The speculator turns a garden into a desert, and then we diminish his taxes. Verily, we are a great people.

The Governments, as well as the ruling classes, know in their secret hearts that the land question contains all social questions; that with its solution all special privileges would disappear, and that this question is the leading subject of the day. Yet, while they pretend to care for the well-being of the masses, and while they raise for them benefit societies, factory inspection, income taxes, aye, and eight-hour working days, they carefully ignore the land question.—*Count Leo Tolstoi.*
